

HALFTIME EMERGING LEADERS ROUNDTABLE 2024

Some talented young leaders dream of their lives being the soil that Jesus spoke of that produced 100-fold. This seven-session peer group will provide you with the process, perspective and people around you to build a roadmap for your next season, with a long-term view to the life God has prepared for you (Eph 2:10). We will tackle foundational issues like work, money, kids, marriage and faith but all of that in light of your long-term desired results.

The analogy Lloyd Reeb (Founding Partner of the Halftime Institute) shares is that pilots have to be good at three things: 1) aviating, 2) navigating and 3) communicating. Many young leaders are good at aviating (performing, achieving, etc.), but this Roundtable will give you the necessary skills and framework to navigate and communicate well!
